THIS IS OUR Toy Loan Building that is visited yearly by over 20,000 visits from Sierra Madre children and their parents. HELP THOSE WHO HELP US

by R. ROBERT EVANS

Since I have been publisher of this newspaper, I have wholeheartedly sponsored two organizations which I have felt were worthy of my undivided support and worthy of my asking you to join with me in doing our best to accomplish the purpose which they were striving to fulfill.

One of these organizations is the Veterans of Foreign Wars, Harry L. Embree Post Number 3208 which consists of the membership of the boys who "offered their lives that you and could live in the freedom that we enjoy." Anything these boys might desire, I will work my fingers to the bone that they might realize their

And, of course, the Sierra Madre Search and Rescue Team. The boys "who offer their lives that they may bring back alive, those who may become lost on their way." You and I have just completed a fund drive for these boys that will allow them operation for the next 14 months, and for what they do for others I would gladly "dedicate the balance of my life to keep them in operation."

Now comes another orevery worthwhile project to their knowledge. Consisting of a membership of approximately 50 women, they have worked in many ways and in the past 15 years have raised over \$14,000 that they have donated to these projects. All during this time they have not asked for one bit of help in their projects, but NOW, they are in a bit of trouble with a project that is going to have to have your help and

The Toy Loan building is getting far, far, far too small to take care of the ever growing numbers of children who enjoy the advantages of borrowing toys. It is absolutely necessary to build a new building before the summer months roll around. The plans have been drawn, and the estibuilding is going to cost in the close vicinity of \$3,000 and this will be the bare walls and floor, When linoleum is purchased and new selving is up it is estimated that the cost will be about

"The Girls" have been figuring every way possible to accomplish the job, and to keep up with their many philanthropic plans. They have planned special projects, but still find that they are going to be short in accomplishing this new building by some \$2,000.

Folks, we just cannot let this worthy organization down. You and I must put our shoulder to the wheel and raise this \$2,000.

Toy Building

The little Toy Loan Buildings are now on the counters of your favorite merchants in Sierra Madre. The dimes, nickels, pennies and quarters will go toward the Toy Loan Building Fund for the purpose of erecting a new building in Sierra Madre, a project sponsored by the Sierra Madre Civic Club. For those that may be a little perplexed . . . It is possible to fold up a dollar bill, a fiver or a ten spot and it will also slip in the little groove. This money will GO DIRECT to the children's benefit in OUR community.

A petition urging that cocktail bars be kept out of city parks will be started this week, it was announced Sunday, December 5, by Rev. Wade B. Jakeway, 425 N. Sierra Madre Villa, Pasadena.

Rev. Jakeway has asked that this decision be

In a letter last week to 1,800 ministers and religious leaders in the county, Rev. Jakeway said he feared that the Los Angeles plan was "a deplorable precedent" that would "create pressures for similar privileges" in surrounding communities.

In his sermon, Rev. Jakeway said he has received letters from many of his colleagues in the ministry supporting him and encouraging him to continue his efforts. He also said that he has had the help of more than 30 volunteers in addressing and mailing his letters, and that he expected even more volunteers to

help in circulating petitions. The first set of completed petitions will be presented to the Mayor of Pasadena with the request that Pasadena retain its ban on the use of liquor in city parks and that, moreover, the city issue a policy declaration opposing the sale of hard liquor within city parks to prevent the Los Angeles example from being suggested here. He hopes that other communities will petition their city officials similarly.

The State Parks Commission, he pointed out, has a policy declaration that calls the sale of hard liquor within parks incompatible with

park purposes.
In his letter to ministers of all faiths in Los Angeles county, Rev. Jakeway wrote:

"How can cocktail bars in public parks be justified? Certainly the paltry added revenue the city would receive for each cocktail sold would hardly make up for the added costs of police protection, the increased crime potential, and the destruction of tranquility in the parks which the city's (Los Angeles') new policy foreshadows."

He also praised the courage of Mrs. Harold Morton, the lone city commissioner who opposed the Yorty administration decision and, who, before the vote, told bye, II.

Mailing Hints Speeds Delivery At Christmas

One of the biggest problems postal employees face is illegible handwriting. At Christmastime, when mail volumes skyrocket, this can become a major problem, Postmaster Guy Rossi said

mailers does help speed the process because often if the city and state are unreadable the ZIP Code will direct the mail to the post office from which it will be delivered. Clerks in that post office, being more familiar with local residents, may be able to figure out the per-son to whom the mail should be delivered.

Another significant problem is the number of parcels delayed or actually undelivered because of poor wrapping or packing. Post-master Rossi urged that special care be taken to see that each package is tightly stuffed and that nothing rattles around inside.

Parcels are generally shipped in bags and often heavier items rest on top of smaller, lighter packages The postmaster encouraged mailers to be a bit cautious and insure all packages.

All parcels should be addressed on only one side and shauld nave the address written somewhere on the inside of the package in case the exterior wrapping should come off. It is a good idea to also enclose a list of the contents.

Poor packaging and illegible or incorrect addressing accounts for about half a million undelivered parcels each year.

THE CHURCH FOR ALL

When Grandmother and Grandfather Todd came say their goodbyes before leaving for Florida, we took their picture. Looking at it, I remember them as they were that day, serene and happy, anticipating their trip. To them there are no sunset years but always a new day ahead.

Life has truly been a table spread before them. Oh, there have been sorrows and trouble aplenty, but always His rod and staff have comforted them. Even in the shadow of death God has been with them, for the Lord is their Shepherd.

Such faith may be yours. Your church is the open door through which you may find that fellowship of understanding which has been to my grandparents their greatest treasure.

Attend your church and find there, through worship and prayer, the inspiration you need for religious growth.

If so, you may be able to get an extra year added to your license term if you renew your license before the first of the year, according to Manager Ray James, of the Pasadena Department of Motor Vehicles.

Persons applying for license renewal before January 1, will be issued fiveyear licenses dated from the expiration dates of their old licenses. But a renewal after January 1, will result in a four-year term license.

LONG'S DATE HOUSE

If your gift list contains anyone who dislikes eating, don't go to LONG'S DATE GARDENS. No — take it back — even old Uncle Scrooge himself would be won over by the countless date delicacies and gaily-packaged California goodies there, ready to tempt the most jaded appetites.

Melt-in-your-mouth dates, the non-candy confection, rolled, stuffed, or whole, taste like California itself. Or for variety try date butter, date nougats, date syrup, and date sugar. Eye-catching ceramic beehives contain a variety of honeys. Honey-sweetened preserves in gournet flavors of tangerine pomegranate, fig-date, ginger-orange would cinch your "taste-rating" with the boss or business acquaintance.

Nuts, choice halves shelled and ready for nibbling, for fruit cakes, for roasting, for sundaes (and the rest of the week too), may cause same agonizing indecision until you "compromise" and add a box—and then another for Auntie Mame (who's a little bit nutty herself).

Then there is fruit cake — bon-bon size to accompany ice cream, sherbet, or simply coffee. Choice dried fruits, or perhaps Sunland olives for those whose sweet tooth has been extracted.

Remember, just the postmark on a present from California conjures up a visition of date palms, fruit trees, and walnut groves. Imagine the delight when any or all of these mental mirages materialize with one of Long's select assortments now ready for holiday mailing. Handy? A Gift To Please

Every Member of the Family

After reading Dr. Spock's neihgborhood. article in the December issue of the Redbook Maga-William are n zine, I find that I am inclined to agree with him up to a point. I agree partially because after raising four youngsters a-la-Spock I'm kind of in a habit and I'd feel as if someone were watching if I didn't. He is right that the young ones and their parents do seem to get into a fever of excitement come the holiday time. Matter of fact, at our house it starts along about the first of March and goes on for the next nine months.

What I don't agree about is the fact that we should shield our children emotionally so they can not take any excitement that happens to cross their paths. life is one strong pull of emotions from birth to death and I'm darned if Santa Claus is going to be the straw that breaks the camels back. I just happen to be in Santa's corner of the ring, and if I weren't so big I'd climb right up on his knee myself and tell him what I want. I get all gloopy over every Santa I see in-cluding the ones that stand on the street corners ringing bells. Glad I don't have to make the momentous decision to shield my gang from that bewhiskered old man . . . They all went through their crisis with flying colors with no lasting unfavorable side effects. OVE TAXES? You'd think some of us do...the way we pay our home community taxes, and then rush off to other cities and towns, to help those people pay theirs.

You know, part of every dollar spent in any community goes naturally to help defray that community's overhead expense -for city, county, and school facilities. More trade volume means smaller direct tax bills...trade volume which leaves a community, leaves bigger tax bills...for every individual who lives in that community.

Governor?

California's 1966 gubernatorial playground is developing in the predictable Golden State manner - with more ups and downs, and twists and turns than a space age roller

A few months ago the uninitiated were reading the public opinion polls and clucking that any Republican in sight could defeat incumbent Governor Edmund G. Brown. Today the polls show that former San Francisco Mayor George Christopher is the best GOP bet to beat Governor Pat and former Governor Goodwin J. Knight is the second best bet to win in November. Brown now outstrips the other Republicans including Ronald Reagan, Laughlin Waters, and other as yet unannounced GOP possible can-

As every survey expert knows, no one can say at this date who is going to win the election - Democrat or Re-

The Democrats have internal problems in California which could only be equalled by those of the Republicans. The California Democratic Council, once and perhaps still the powerful volunteer arm of the party, is gravely split and while the wounds may not be fortal, certainly the CDC period of recuperation from the recent brannigan

Los Angeles' Mayor Sam Yorty, a fellow Democrat with Brown, obviously is giving serious consideration to running for the party nomination in June. It is rumored that Yorty is not at all convinced Brown will run for reelection and even if he does Yorty is said to be a likely

Over on the GOP side, it is equally difficult to tell who actually will file, officially. for the party nomination. It is as certain as things can be in politics that George Christopher and Ronald Reagan will do so. At the moment, although the polls show Christopher beating Brown in the General Election, they show Reagan who is losing to Brown beating Christopher in the praty primary election. Question marks in terms of filing would have to be former Governor Knight, Laughlin Waters, Joe Shell, Warren Dorn Sierra Madre is installed as and Assemblyman Robert Monagan. Other candidates also are talking about making the GOP race.

As the race narrows down there will be further ups and downs in the popularity contest. The man who gets party. out on top, in June and November, will be the one who understands the twists and turns of the road best and is blessed with the modicum of good fortune necessary to win

Don't Be A Moocher

Social welfare programs continue to expand at a galloping pace. It seems a certainty that regardless of the party in power federal money or assistance of one kind or another will be made available to an even greater number of members of groups which will be singled out to be cuddled under the protective wing of the welfare state. Individual need for assistance will often be ignored and eligibility for benefits will depend on such factors as age, where you live, your race, occupation and even the amount of rent you pay relative to your total income. In this way, large blocks of citizens are given a common vested interest in the extension of the welfare state. As this process continues, practically every person in the country will find himself, sooner or later, in a group being favored by some sort of public welfare. At this point, we will have to ask ourselves a very personal question. Is freedom really worth a monetary loss or can we be bought?

In the Odessa, Texas, American, Oscar Cooley observes that, "In one breath, people complain of 'big government' - and in the next demand their share of the loot ... The fact is that between asking for a dole, and merely accepting it when proffered, the difference is so slight as to be invisible, at least to the eye of the average congressman. He judges the popularity of a dole by the number

of takers and this statistic usually tells him to vote for it . . . Social evils become established because of their acceptance by individuals, one by one. Likewise, such evils wither on the vine when individuals, one by one, condemn them and refuse to participate in their fruits."

When a dole gets around to you, make a decision. If you don't absolutely need it, refuse it, thereby registering a vote of "no confidence" in government domination over your life. Your Senators and Representatives in Congress may hesitate to collect more taxes from you, annoy you with regulations, depreciate your money and wreck your business in order to pay you a dole of one sort or another that you don't want and won't accept.

The Great Question

It will be a long time, if ever, before controversy over the deeds of the 89th Congress ends. And it will be a long time before the full effect, for good or ill, of the mass of unique legislation it passed is fully felt and understood. But one thing is certain — the 89th has been a spender

with a capital S. Time magazine reports succintly: "In all, the 89th spent \$119.3 billion — a total unprecedented in peace-time and one that will require decades to pay off: interest on this year's national debt alone came to

It now remains to be seen what spending on this staggering scale will do to the dollar's worth. Federal deficits, as painful past experience tells us, are breeders of inflation. And, ironically, inflation is the worst enemy of the people of small means whom much of the new legislation is supposed to help.

If the government cannot come near to balancing its budget in boom times, when tax revenues are at enormous levels, when can it? The dollar's value has been degraded by about half in the postwar years. What will be left of it a few years from now? No more important question than that confronts the American people.
